

We listen to K-Love in the Raleigh-Durham area on station 106.7 FM. We join hundreds of thousands of listeners in our area in enjoying the family-friendly programming K-love provides.

This isn't a station where families have to be concerned over what their children might hear. K-Love is one of a handful of stations in America that supports wholesome values and has a positive impact on our communities. Our family and friends would be negatively impacted should K-Love be forced off the air by LPFM because we don't want to listen to stations that do not provide wholesome programming. Our family has financially supported our K-Love station for years and we want to continue to enjoy the programming it provides. Families all across the nation agree that K-Love is one of the best stations out there and we respectfully request that they remain able to use FM translators. Thank you for your consideration.
